

Shippabo

# The Shippabo Solution

*For importers that want efficient freight forwarding, predictable costs, and real-time visibility on shipments*

## Our Mission

Shippabo brings greater transparency, collaboration, and actionable data to shipping and logistics — so businesses can have better predictability and oversee their supply chain from anywhere, at any time, and on their terms.

## Our Team

We are a team of shippers, logistics consultants, and technologists creating the change we want to see in an industry that can benefit from modernization. We had experienced the frustrations of shipping at scale firsthand. We saw an opportunity and built a technology platform based on our own lived experience, one that empowers businesses to work smarter and thrive.

## How We Help

Shipping has always been a complicated business. With Shippabo, it couldn't be simpler. Our cloud-based platform and team of consultants help you optimize your supply chain and get your shipments from dock to door.

- As a supply chain management solution and shipping service, Shippabo is here to help your business optimize its supply chain and thrive during peak shipping season. Having the right plans and processes in place is one thing, but having the right tools is quite another. With decades of industry experience, we are bringing freight forwarding into the future. With Shippabo, we can be your one-stop-shop solution.

# With Shippabo, you can:

## Leverage Real-Time Insights

Accumulate real-time data on your shipment location and track shipments by product ID, name, or purchase order — for your internal teams and suppliers.

## Streamline Information

Bring everyone in your supply chain onto the same page with in-shipment messaging, and document centers.

## Automate Compliance Visibility

Create a compliance program tailored to your company's needs. All in one place: review shipments entries, release statuses, duties, and exams — no more juggling siloed systems and applications.

## Control Inventory and Improve Fulfillment Rates

Control your in-distribution center date by pre-booking shipments and managing inventory with real-time SKU-level visibility.

## Increase Visibility

Don't let shipments slip through the cracks — track moving pieces in real-time when your team is slammed.

- Pre-book shipments weeks or months in advance
- Set in-distribution center date to optimize route and mode
- Track shipments by product ID, name, or purchase order
- Track shipment location in real-time

## Leverage Actionable Data

Optimize your supply chain with real-time data to make quick and efficient decisions.

- Turn to your all-in-one dashboard and calendar for shipment statuses
- Create customized reports on the shipment views you need
- Inform future shipments with forecasting tools and trends

## Centralize Collaboration

Avoid stressful and time-sensitive mistakes. Keep your teams in touch on one unified platform.

- Use in-shipment messaging to connect quickly and easily
- Rely on auto-notifications such as scheduled reports for shipment updates

Don't wait for peak season to sneak up on you. Connect with our team today for a free assessment on how you can turn your supply chain into an operations powerhouse.
