Transforming Supply Chains for Long Term Success

“Everything in our world is moving forward,  
and I was looking for a growing company  
**pushing the envelope** on the antiquated  
ocean freight market.”

- Value Vinyls

94%

of companies have limited or no visibility of  
their supply chain.<sup>2</sup>

Leaving them  
vulnerable to  
disruption

No company can 100% prevent what  
**WILL**  
arise in the future.

But you can ensure your logistics network  
**has the tools and partners in place**  
to better navigate those obstacles.

**Shippabo** is your global logistics and inventory management solution.

Think of us as an extension of your team. We provide actionable, real-time insight to help you optimize your business.

We are here to empower you to make better, faster decisions that lead to **COST** and **PROCESS EFFICIENCIES**.

## How do we do this?

### **EFFICIENT TRANSITING**

Trust us to keep your cargo moving. We leverage our partnerships to identify the most cost-effective solution, whether it's expedited delivery, guaranteed load, or less-congested routes - we have the right service to meet your needs.

### **REAL-TIME DATA & VISIBILITY**

We are directly integrated with steamship lines, carriers, terminals, rail yards and U.S. Customs so you can feel confident you are getting the most up-to-date information available. No more outdated or unreliable shipment statuses.

### **REPORTING AUTOMATION**

Cut down on menial tasks while keeping everyone in the know. We automate the report sharing process to save you time and keep your network up to date on all your shipments.

### **RELIABLE OPERATIONS EXPERTS**

Our global operations team has decades of supply chain experience, and will work to move your shipments as efficiently as possible.

**Make pivotal decisions before supply chain  
disruption causes critical interruption.**

Leverage our global logistics platform and operations team to help you strategically plan all your shipments.
